

CABRERA FEBLES

ARCHITECTURE, LANDSCAPE AND PLANNING

Description of the company:

CF Cabrera Febles Arquitectura Paisaje y Urbanismo is a professional services company with its headquarters in Santa Cruz de Tenerife, Canary Islands, Spain, set up in 1995 and formed by the architects, María Nieves Febles Benítez, Agustín Cabrera Domínguez and Víctor Cabrera Febles.

In the conduct of its services, the company has carried out numerous projects both for the public and private sectors, in all fields connected with town-planning and architecture, social housing, health projects, cultural, sporting and leisure projects, as well as General Town and Territorial Area Plans, Special Protection Plans and Detailed Studies.

The consultancy firm began its internationalisation process in 2009 and, since then, CF Cabrera-Febles, has won a number of significant bidding competitions either individually or in association with others.

The company has the UNE certification in ISO 9001, UNE in ISO 14.001 and EFITECNIC.

The company has a department specialising in the management of international projects. It has a broad nucleus of collaborators in a range of sectors: engineering, geography, urban and environmental, urban economy, urban sociology, cartography, law, overseas trade, tourism, transport and mobility, sociology, quality control, etc.

The studio aims to satisfy the expectations of its clients, bearing in mind the principles of constant improvement and fulfilment of the legal requirements and relaxations that are applicable. In this regard, they have also set up a system of quality and environmental management to guarantee the delivery of the service with satisfaction and commitment to environmental management.

CF Cabrera-Febles won the 2015 Spanish-International Architecture Prize in the category of Urban Development for the Master Plan of Territorial Planning for Greater Agadir.

DETAILS OF THE MOST SIGNIFICANT PROJECTS

PROJECT

10 Health centres in Equatorial Guinea.

DESCRIPTION

This project consists of drawing up the project for and building of ten health centres, for which the requirements are the building of the outpatients' clinic and a building for two semi-detached houses. The ten health centres will be fenced and equipped: three will be located on the Island of Bioko, in the towns of Alegre, Moka, and Malabo-Rotonda Arab, and the other seven on the mainland, in the towns of Alen Angok, Abiara Esatop, Ebang Esangui, Esong Concentrado, Kukuma-Nkok Tegue-été and Vabe. The project for the internal planning of each plot follows the same scheme, adapted to the different characteristics of the ten locations.

Customer: Ministry of Health and Social Wellbeing of Equatorial Guinea.

Organisation: African Development Bank.

Country: Equatorial Guinea.

Amount: €728,773

Commencement /Completion: 2012- 2016

PROJECT

SDAU – Master Plan for Greater Agadir (Morocco) and its general plans:
Joint Venture with Beltrán-Cabrera-Trujillo.

DESCRIPTION

The area studied covers a radius of 30 kms in Greater Agadir. This area comprises both small villages and significant provincial capitals, of which only a few are regulated by town-planning instruments that are in force during the legal period of activity of the Master Plan. In order to better understand the problems and strength in this area, two analyses on different scales have been proposed for the preparation of the study: the research area and the area of the Master Plan. On 19th November 2015 the "Prize for International Spanish Architecture" was received for the conduct of the territorial and urban planning of Greater Agadir.

Co-authors: Walter Beltrán Arquitectos and Gumersindo Trujillo.

Customer: Urban Agency of Agadir.

Organisation: Ministry of Town and Territorial Planning of Morocco.

Country: Morocco.

Amount: €1,420,963

Commencement / Completion: 2012 In preparation.
